

□ **RKL 160**

**The oil free rotary vane compressor
for liquid tankers**

RKL | The oil free rotary vane compressor for liquid tankers

CVS develops and manufactures compressor-vacuum pumps and compressors specifically designed for installation in liquid trucks, vacuum trucks and silo trucks. We introduce our new oil free, air cooled rotary vane compressor RKL 160 for unloading liquid tankers.

Characteristics

- variable mounting brackets
- Optimized cooling
- Clockwise or counter clockwise rotation
- Low weight
- Compact design
- Variable position from suction and pressure flange

Dimensions

Performance Data

Volume flow at free air	m ³ /h / cfm	145/85
Volume flow at 2 bar g / 28.4 psig	m ³ /h / cfm	123/72
max. pressure	bar / psig	2.5/35.5
Speed	1/min / rpm	1600
Power requirement at 2 bar g / 28.4 psig	KW / HP	9.1/12.4
Weight	Kg / lb	33/73
